

Having a hard time getting your kid to study?

Does your kid lack interest in learning?

Is your kid spending too much time on video games?

Is your kid falling behind on his math and/or reading classes?

Are private tutoring and learning centers costing you too much?

Do you have limited time monitoring your kid's progress in school?

How would you like to have your kid excel in school and have an edge over other kids in learning?

Would you invest a small portion of your budget to be able to find ways to solve all of your concerns for your kid's education?

If you answered "YES" to any of the questions above, then we have the solution you have been looking for!

This is the ultimate solution to help motivate your kids to learn and have fun at the same time. The technology is unparalleled to any software available out there! You will see great improvement in your kid's skills in a matter of a couple of weeks!

Your kid's education is too important for their future. You cannot afford to wait any longer while your child is left behind. Because time waits for no one! So get started today by logging on to: www.eXcelKID.com for a Free Demo.

eXcelKID is an independent marketing company whose mission is to help each child reach his or her greatest potential by fostering academic and personal growth using leading-edge technology, education and financial resources to provide a better future for today's younger generation.

eXcelKID recently formed an agreement with a U.S.-Based educational software company, Learning Through Sports, to be the exclusive distributor of Kid's College to Individual Users in the United States, Asia and Canada. Kid's College is one of the most unique web-based software available to students that uses sports video games as a motivational tool to help students improve their math and reading/language arts skills.

Learning Through Sports/Kid's College

Advanced Features:

- Adaptive Technology (software automatically adjusts curriculum to remediate or accelerate according to the student's level skills)
- Academic Performance is continuously monitored to provide a personalized learning experience.
- Track student's progress at a glance on a daily, weekly, monthly or annual basis.
- Parent can control and design the program specifically to the student's needs.
- State-Standardized aligned curriculum for math and reading/language arts.
- Accessible on-line 24/7 for in-school and after-school practice.
- Skills practice at student's own pace privately without embarrassment.
- Educational hints help student master specific deficient skills.
- Rewarding variety sports games to motivate student to progressively learn.
- Friendly competition challenges students to practice more questions to achieve higher score in their favorite sports game.
- Progress reports to identify student's skills gap.
- Customized Supplemental Workbooks to help students focus on specific skills.
- Engages and disciplines student to constantly learn.

Other Benefits For Parents:

- Minimize time travel to learning centers. Web-based for easy access.
- Low monthly cost (deducted automatically from credit card) compared to expensive private tutoring or learning centers.
- Parent has incentive reward system to encourage student to learn.
- No additional expenses for supplemental workbooks for printout.
- Prevents student from spending too much time playing video games that has no educational value.
- No contracts required.
